RAYMARK MATEO SATINGASIN

BSIT STUDENT | WEB & MOBILE APP DEVELOPER

San Carlos City, Negros Occidental, Philippines
rymrkmateo@gmail.com

PROFESSIONAL PROFILE

Second-year Information Technology student with hands-on experience building web applications, mobile apps, and administrative dashboards. Familiar with React, Supabase, Express, SQL, and Kodular, with project experience spanning database operations, CRUD workflows, and user-interface prototyping. Eager to contribute to real-world projects while continuing to develop practical software development skills.

TECHNICAL SKILLS

Web Development	HTML, CSS, JavaScript, React, responsive design
Backend & Data	Supabase, SQL, Express, CRUD operations, data structures and algorithms
Mobile Development	Kodular, TinyDB, application logic and testing
UI/UX Design	Figma, wireframing, prototyping

SELECTED PROJECTS

FUNRUN Registration System | Web Application | Group Project (4 members)

- Developed a fun run registration web application using React and a Supabase database.
- Built a password-protected admin dashboard with participant records, a processing queue, activity history, and name lookup.
- Applied data structures and algorithms including queues, stacks, binary search trees, searching, and sorting.

PhotoBook | Photography Booking Website

- Created a customer-facing website for browsing photographers, viewing profiles, and submitting booking requests.
- Developed an admin dashboard with Supabase sign-in and tools to manage bookings, photographers, and packages, including photo uploads.

Quiz Competition | Android Application | Kodular

- Built a quiz app covering English, Mathematics, and Filipino, with ten questions per subject.
- Implemented score messages and a leaderboard stored using TinyDB.

CRUD Dashboard | Web Application

- Built a dashboard to create, view, edit, and delete records using an Express server and Supabase database.

Figma Prototype | UI/UX Design

- Designed a clickable app prototype demonstrating screen layouts, interface components, and user flow before development.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Central Philippines State University – San Carlos Campus | San Carlos City, Negros Occidental

Currently in second year
